PROFESSIONAL SUMMARY

Software Development Engineer with **3+ years** designing, developing, and deploying enterprise-grade web applications and RESTful APIs. Proven expertise in full-stack development with React (TypeScript), Python (Django/FastAPI), Node.js, and PostgreSQL. Delivered mission-critical systems processing **150+ Cr monthly transactions** with **99.5% uptime** serving **1000+ SMEs** and **10,000+ DAU**. Strong foundation in SOLID/OOP principles, microservices architecture, and agile methodologies. Currently expanding into C# and .NET.

TECHNICAL SKILLS

Languages & Frameworks: Python (FastAPI, Django REST), Node.js (Express), JavaScript/TypeScript (ES6+), React.js, Redux Toolkit, HTML5, CSS3 · *Learning:* C#, .NET Core

Architecture & Design: RESTful API Design, Microservices, MVC, SOLID Principles, OOP, Design Patterns (Factory, Singleton, Strategy), Async Programming

Databases: PostgreSQL (Advanced), MySQL, MongoDB, Django ORM, SQL Optimization, Query Performance Tuning

Cloud & DevOps: AWS (S3, ECS, IAM), Docker, Git/GitHub, CI/CD (GitHub Actions), Postman, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Software Developer

Proffin Pvt Ltd (FinTech) · Dec 2023 – Present · Delhi, India

- Architected mission-critical financial platform serving **1000+ SMEs** and **10,000+ DAU**, processing **150+ Cr monthly transactions** at **99.5% uptime** — stack: React 18/TypeScript, Django/FastAPI, PostgreSQL, AWS
- Built 10+ RESTful microservices with Pydantic validation, JWT auth, role-based authorization, and Swagger/OpenAPI docs; async task processing via **Celery**
- Designed normalized PostgreSQL schemas with strategic indexing; optimized ORM queries (select_related, prefetch_related) achieving **70% query performance improvement**
- Reduced SQL response time **800ms → 200ms (75%)** via systematic profiling of complex joins, subqueries, and aggregations
- Delivered credit scoring rule engine and automated lending workflows, achieving **85% process automation** across real-time financial data pipelines
- Mentored 2 junior developers; led code reviews enforcing SOLID principles and architectural guidance across sprint cycles

Subject Matter Expert — EdTech Platform

ByteDance Pvt Ltd · Apr 2020 – Nov 2021 · India

- Built Django REST Framework APIs for content management system serving grades 9–12 platform with **2M+ video views**; contributed to **30% enrollment growth**
- Implemented business logic for learning analytics and recommendation engine, driving **25% increase in user engagement**
- Analyzed **2M+ user interactions** (Python/Pandas/NumPy) to derive product insights; built ETL data pipelines for quality reporting
- Automated content validation, data extraction, and bulk operations via Python scripts — reduced manual work by **60%**; cut support tickets **40%** via proactive error handling

KEY PROJECTS

Enterprise Financial Platform · Django REST, FastAPI, React/TypeScript, PostgreSQL, AWS

Production system processing 150+ Cr monthly across 25+ institutions. Credit scoring microservices, automated lending workflows, real-time dashboards — 85% process automation.

DevFrnds — Developer Networking Platform · React/TypeScript, Node.js, MongoDB · 2023 · devfrnds.online

Full-stack developer matching platform (500+ users). Swipe-based matching, real-time WebSocket chat, JWT auth, RESTful APIs for user/connection/messaging management.

EDUCATION

B.Tech in Civil Engineering · G L Bajaj Institute of Technology & Management · 2014 – 2018

Relevant: Data Structures & Algorithms, OOP, DBMS, Software Engineering, Web Technologies, Computer Networks

CERTIFICATIONS & ADDITIONAL

Frontend: React – The Complete Guide (TypeScript), Advanced React Patterns, Redux Toolkit · **Database:** PostgreSQL Performance Tuning, Advanced SQL, Database Design · **Learning:** C# Fundamentals, .NET Core, ASP.NET Core · **LeetCode:** 300+ problems solved
